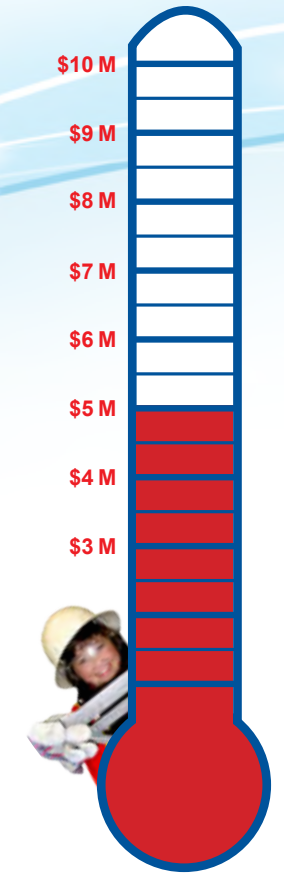
We're Building California's 1st Boys & Girls Club on a College Campus

The "Building Dreams" campaign to build California's 1st Boys & Girls Club on a college campus is well underway! So far, the Club has raised nearly $5 million of the $10 million needed to build a preschool, gymnasium and Club for school-age kids at Golden West College in Huntington Beach. And, the Club completed the first phase of this project with the grand opening of the Robert Mayer Child Development Preschool in 2011.



The preschool is already changing families' lives for the better. Rolando is a hard-working, devoted single dad. He works a full 40 hours a week. On top of that, he goes to school full-time at Golden West College. Enrolling his four-year-old daughter at the Club's on-campus preschool has changed his life by helping him stay in school while giving his daughter a strong start academically. He writes:

"If it weren't for the Boys & Girls Club, I would have to drop out of school and get a second job to pay for preschool and give her the educational foundation she gets at the Robert Mayer Child Development Preschool. I want my child to have every opportunity to succeed."

When this project is complete, the Boys & Girls Club will be able to help even more families like Rolando's. In addition to preschool programs, the Club's Family Campus will offer: before and after school care for school age youth; full day programs during summer and school holidays; sports leagues and fitness programs; and family support services, including the Club's award-winning Twilight Education Project. By helping parents go back to school and work, and by giving 2,500 kids each year the chance to grow up on a college campus and inspiring them to go to college, the new Club will help whole families make their dreams of great futures come true.

We thank everyone who has joined us in this endeavor. On the next page, you can see a list of the generous supporters who have come together to raise the campaign's first $5 million. Your support for the campaign is more important than ever. The Club will break ground on the project's remaining phases in 2014 so the Family Campus will be complete and able to serve kids and parents in 2015. We invite you to learn more or get involved in this important project today by calling the Club at 714-309-4962.

OPENED JANUARY 2011

Phase I:
ROBERT MAYER
Child Development Preschool

CONSTRUCTION SCHEDULED TO BEGIN SUMMER/FALL 2014

Phase II:
HARRY & JAYNNE BOAND
Gymnasium

Phase III:
KINGSTON TECHNOLOGY
School Age Club
